## **CHRISTOPHER J. WOOSTER MEMORIAL SCHOLARSHIP**

Established 2008

**C**hristopher was a 1999 graduate of Chelmsford High School. Christopher had a deep love of all things sports related. He enjoyed playing football his whole life. He started playing Chelmsford Pop Warner as a young boy, and continued playing right through his high school years.

However, his love of sports did not stop there. He was an avid fan of all local sports teams, and took every opportunity to watch them wherever he was. He was also very involved in fantasy sports teams, and enjoyed them immensely.

Another of Christopher's passions was current events. He always kept up with the world and what was going on all over it. Whether it was politics or foreign affairs, he knew about it. That love led to his interest in political science, which he later chose as his major. That interest kept him at the center of conversations and led to many debates with family and friends.

Christopher's personality was contagious. He was at the center of a tightly knit group of friends whom he considered to be family. He was a well-loved person, and will forever be missed. It is our hope that through this scholarship his name will be remembered for the remarkable person he was.

He is survived by his loving family, and all of those who considered him to be a dear friend.
