## **BAINS FAMILY SCHOLARSHIP**

Established 2005

**W**ith the Bains Family Scholarship, Dr. Rekha Bains and her three children, Geetanjali (class of '94), Chiraag and Deepika (both class of '99), wish to acknowledge the strong positive influence Chelmsford High School's administration, faculty and staff have on its students.

Dr. Bains, a local pediatrician, and Geetanjali, an engineer, live in Chelmsford. Chiraag and Deepika are law students.

It was when her children received their CHSAA scholarships that Dr. Bains first considered how to express the gratitude she and other parents felt for the excellent education the school has provided for years. She believes CHS fosters in students a strong sense of community, integrity of character, and leadership ability.

At the behest of the Bains family, its scholarship is "awarded to a deserving graduate of Chelmsford High School who is enrolled in an undergraduate, graduate, or postgraduate program who has shown commitment to community service and to effecting positive social change."
